CARN-AP exam

## REVIEW COURSE

Boston Medical Center's Grayken Center for Addiction TTA is offering a FREE exam review course for Registered Nurses (RNs) and Advanced Practice Registered Nurses (APRNs) working in the addiction field who have an interest in becoming a Certified Addictions Registered Nurse (CARN) or a Certified Addictions Registered Nurse - Advanced Practice (CARN-AP). This course is intended to support nurses studying for the CARN and CARN-AP exams.

## PRACTICE QUESTION SUPPLEMENT

This document was created to provide Registered Nurses (RNs) and Advanced Practice Registered Nurses (APRNs) with practice questions to assist in preparation for the Certified Addiction Registered Nurse (CARN) and Certified Addiction Registered Nurse – Advanced Practice (CARN-AP) exams.

Practice questions and associated rationales were developed based on current best practices in substance use disorders and process addictions care to assess knowledge of the practice activity and patient presentation domains outlined in the Addictions Nursing Certification Board (ANCB) blueprint revisions for the CARN and CARN-AP exams as of July 2022.
